AI Generalist | Data & Automation

Tamil Nadu, India

Summary

Data Analyst in ZoomInfo with more than 2 years of experience with spreadsheet tools like Excel and Google Sheets and more than a year of experience in SQL. Currently pursuing data skills like Python and Tableau. My previous experience includes the position of Research Analyst in Altrata where I had been recognised as best performer multiple times through my tenure.

Experience

ZoomInfo

Data Engineer

June 2023 - Present (2 years 4 months)

Chennai

- Developed Python scripts for email validation automation and data quality checks and saved about 10 man days' effort per quarter.
- Developed and optimized SQL queries in Snowflake for analytics and reporting
- Developed Salesforce Utils script and SingleStore Utils script from scratch using Python which helped in cross team adaptability.
- Developed PDF reports and Tableau visualizations for internal teams
- Collaborated with cross-functional teams to support decision-making with clean data pipelines
- Contributed to GCP-based Full File Collector scripts and data ingestion workflows
- Supported analysis of credit usage and free credit patterns across clients using Tableau

Altrata

2 years 9 months

Senior Research Analyst

August 2022 - June 2023 (11 months)

Chennai, Tamil Nadu, India

ALTRATA is a part of Euromoney Institutional Investor PLC, and includes BoardEx, Boardroom Insiders, RelSci, WealthEngine and Wealth-X.
